AMENDMENTS TO THE SPECIFICATION

Please amend the Specification as set forth below.

Please amend paragraph [0053] that begins on page 11 of the Application, as follows:

[0053] In an embodiment of the present invention, wherein both sender 130 and receiver 107 may have the same ~~(or similar firmware)~~ (or similar) firmware and wherein a frame of reference may not be available, firmware on sender 130 may be used as the reference frame to generate difference information (or update package) from data 123, difference information that may be subsequently communicated to receiver 107. Receiver 107 may have the same firmware as sender 130, or may have access to a copy of firmware of sender 130, and may employ firmware to generate data 123 from the difference information (or update package) received.
